

## **Delivering Quality, Revealing Excellence**

### ***Accreditation Counseling***

SeaCrest Company specializes in leading certification programs to achieve accreditation from the National Commission for Certifying Agencies (NCCA), the American Board of Nursing Specialties (ABNS), and the American National Standards Institute (ANSI). SeaCrest offers the following accreditation-related services:

- *Needs Assessment:* A complete review to determine a program's readiness to apply for NCCA accreditation. Includes a detailed written report recommending improvements and/or changes needed to achieve a positive accreditation decision.
- *Change Implementation:* Assistance implementing changes needed to prepare for the accreditation process. Changes may include: governance structure, preparing/revising policy and procedure documents, Bylaws changes, candidate handbook revision, and changes in exam development or administration.
- *Application Preparation:* Guidance through the accreditation application process including completing the application form; gathering and preparing needed documentation; and organizing, producing, and submitting all application materials.
- *Application Review:* In-depth review of a program's accreditation application(s) with a detailed report of all areas that need to be addressed before the application is submitted to the accrediting body.
